

Intra School Competitions

Competitions play an important role in motivating students to perform and excel and gain substantial experience, showcase skills, analyse and evaluate outcomes and uncover personal aptitude. Students of Ralli International School participate in various competitions to adopt innovative techniques and develop their ideas and skills.

The school organised umpteen number of competitions for the students of Classes I to XII at various levels throughout the year. Competition is inevitable principle of our life, it encourages students to work harder, study further and in the process, boosts their confidence.

It is not an exaggeration to admit that competitions held at primary level were taken up in a serious mode by the little wonders. The students of class I-V participated in the events and surprised everyone by their amazing preparations.

Class VI-VIII students participated and amazed the teachers by the level of research they did for the competitions. They involved themselves in the events and made the entire experience full of fun and excitement.

Class IX-XII students became enthusiastic as they could prove their skills against the best talent. These competitions motivated them to use technology in positive and productive manner. It also helped them to gain confidence to face and compete with various kinds of students.

Such competitions teach students the real lesson of the world and prepare them for the ultra-competitive job market through athletics and academics
