

A STEP TOWARDS AWARENESS

Natural disasters and other emergencies can happen at any time & anywhere ,to combat this grave issue, we all should be prepared to handle them safely and effectively to overcome with this situation.

A training and education programme for the students for such an unforeseen emergency like earthquake or any natural calamity, has always been our school priority.

In regards to this, RIS conducted a mock exercise and evacuation drill on 10th October 2019,Thursday.

Immediately, after the sound of the siren, the students were asked to leave their classes and evacuate the school as guided by the teachers .Students were gathered in the playground which was deemed as safe zone. Following all the safety measures ,the entire school building was successfully evacuated within a span of 4 minutes to 5 minutes. A formal evacuation plan was framed by the sports and social science staff under the guidance of Principal Ma'am Ms. Neha Ralli.

The drill was organized to check the readiness of the school to face any such emergency during any natural calamity and also to make the students aware about its operations and its procedures.

The students from different classes shared their experiences and learning received from the drill. Through these drills, we prepare ourselves for meeting the challenges in adverse situations and in coping with unpredictable circumstances.
