

# Report on Earth Day

## EARTH DAY 2021 CELEBRATIONS

@The Ralli International School celebrated World Earth Day on April 22, 2021 .

**EARTH DAY** is celebrated around the world with a beautiful message - "Our continuing efforts in our everyday lives will make this beautiful planet thrive." Earth Day is a proof that even one person can make a global impact in a positive way. Echoing the same, Ralli International School celebrated "The Earth Day" through a series of activities on 22<sup>nd</sup> April.

The whole school, whether it was the students, support staff, teachers, guards, admin staff or helpers took part in this "Go- Green initiative" .The students were reminded of simple doable actions towards safe Mother Earth. On this day, we try to plant a sapling or a plant which helps us from avoiding global warming.

Array of creative online events were organized with a view to sensitize the children about the conservation of natural resources and to motivate them to do their bit towards making their planet even more beautiful. Our Environmental conservationists from the Kindergarten and the Primary Wing contributed by doing various activities to create maximum awareness and impact.

### Kindergarten Activities:

Earth Day was celebrated through educational and action-oriented activities that were fun. On the occasion of Earth Day, teachers showed PowerPoint presentations to remind the students of their duties towards 'Mother Nature' and some significant contributions that they could make to support 'Go Green' drive. They were advised to adopt a tree and to encourage the same; students planted their saplings in pots. They also indulged in a craft activity in which they coloured a thermocol white ball representing Mother Earth, with blue and green colours symbolizing land and water. The tiny tots took an oath on the Earth Day to keep their environment clean and plant more trees. Our tiny tots enthusiastically participated too!

### Grade I to III Activities:

The students of primary wing enthusiastically participated in myriad of activities conducted in the classes to commemorate our benevolent Mother Earth. To start with, the students learnt the importance of the Earth Day and the need to preserve and conserve their self-sustaining planet. Students expressed their views poetically by reciting poems based on the theme and it was a pleasure to listen to them. A thought provoking skit conveyed a strong message to one and all about the little things we can do in order to take care of our Earth like- reduce the use of plastic bags, reusing old items and recycling waste stuff. An enactment was performed by the kids that highlighted the importance of conserving resources for our future generations. A soulful dance performance dedicated to our blue planet and to celebrate the Mother Earth was organized. It touched upon the major issues such as excess use of plastic, depletion of Earth etc. Last but not the least, the students took a pledge to preserve and conserve their self-sustaining planet Earth.

The students participated in these activities with great zeal and enthusiasm showcasing their artistic and creative skills.

Teachers added the finishing touch by addressing the students and emphasizing upon the importance of afforestation, planting of trees and the need for everyone to put together their efforts and get into action, in protecting our environment.

## CELEBRATION AT A GLANCE

Just in time to support Earth Day this year, our school adopted cutting-edge resource for elementary, middle and the senior wings .

*"Many students love music and dance, and research indicates that learning through music and structured movement is good educational practice."* With this thought in mind, our school planned the Earth Day week with great zeal to spread maximum awareness. We used our students' love for songs and dance to deepen their enjoyment of the learning experience. Our little learners had lots of fun singing and dancing along to these educational Earth Day songs! The students were actively involved in the entire teaching-learning process.

Many Earth Day songs and Lyrics as per grades were taught to our kids in their regular music classes. They were-

Grade II - 'The Earth is my home'

Grades III-V - 'Dharti ke rehne walon'

Grades IX-XII - 'Hum yahin jiyenge'

Our dance teachers taught the following Earth Day dances-

Grade I & II - 'Ye Nadiya ye taare kya keh rahe hain'

Grades IV & V - 'Tik Tik kasm ye khae re plastic tik na paaye re'

Grades IX & X - 'Dharti ka dil ka bole ab to dhak dhak'

*This definitely helped to spark the passion in our young students. Students felt motivated to take this cause forward by spreading the message and taking action before it's too late! Most importantly students learnt that **'Every Day, Earth Day'**.*

*Indeed, a great initiative taken up by our Music and Dance Teachers.*

*The drive was a huge success, empowering students with substantial knowledge of environment and plants.*
