

Glance Of activities conducted in the month of January

Paper Plane Making Activity

Prep students made paper planes during the online class. Through this activity, they got the opportunity to turn an ordinary piece of paper into something that can fly effortlessly through the air with just a few strategic folds. They enjoyed doing this activity.

Winter Scene Drawing Activity

Drawing activities allow children to explore colour, line curvature, how lines can be used to draw shapes and how shapes can become scenery. 'Winter Scene Drawing Activity' was conducted for the students of class Prep. It was an enriching experience for the students.

Book Mark Activity

A good bookmark can be invaluable saving your precious time thumbing through the pages to find your place. Therefore a 'Bookmark Making Activity' was conducted for the students of class Prep. The students worked enthusiastically and experimented with blue and yellow colours to flaunt their artistic imagination and prepared beautiful bookmarks. All the students enjoyed the activity and learned the use of bookmarks.

Foil Paper Activity

Foil Paper Activity held on 18th of January. This task of making spider with foil paper created a multi-sensory experience (sight, sound, texture), which was unique to anything. Crunching up and unwrapping foil also provided great fine motor work.

Winter Magic Cap Making Activity

Working with paint colours and textures teaches children how things work and how they fit together. Nursery children enjoyed making patterns with paint on their caps. This activity helped children in hand and eye coordination.

Bird Making Activity

Students of class Nursery enjoyed an interesting activity with letter b wherein the children made birds with paper and clay. It was a fun-filled activity that helped the students to understand letter b clearly.

Origami Flower Making Activity

To trigger Tiny Tot's imagination and enhance their creative skills 'Origami Flower Making Activity' was conducted for Nursery class. Students made beautiful tulip flowers by folding the craft paper. They were very excited about the activity and enjoyed a lot doing the same.

Leaf Printing Activity

Printing activity provides lot of fun & learning for young children. Kids love to do experiments with different tools. Giving them an opportunity Ralli International Kindergarten conducted a 'Leaf Printing Activity' for the students of Pre-Nursery. They enthusiastically learned the art of using leaves to print patterns and were amazed and delighted by their priceless piece of art.

Thumb Printing Activity

To enhance the fine motor skills and creativity of our little Rallians 'Finger Printing Activity' was conducted. Children dipped their fingertips in green colour and made beautiful trees. It was a wonderful experience for them.
