

## GLIMPSES OF THE ACTIVITIES CONDUCTED IN THE MONTH OF APRIL

**Sewing Toys Activity-** Pre-Nursery Students did Sewing Toys activity. It helped them to build the concept of size in different dimensions along with gripping. It also helped in improving their concentration, coordination, and independence. It was an enriching experience for the students. They thoroughly enjoyed doing this activity.

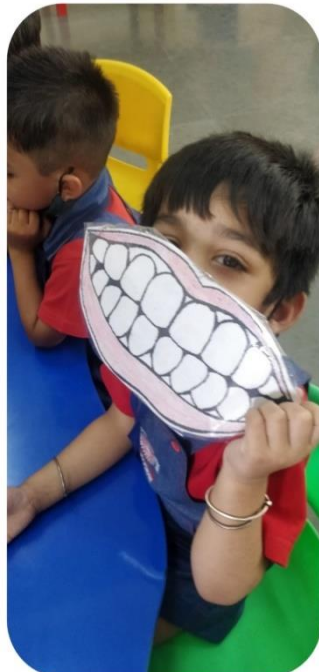

**Floor Activity (Circle Shape)-** Pre-Nursery children took active part in the floor activity. As per the instructions given by the teachers, they jumped inside and outside the circle, collected the balls from the circle, etc. This activity helped them in learning circle shape and also improved their gross motor skills.

**Thumb Printing Activity-** was organized for the students of class Nursery. This activity helped to improve their eye-hand coordination and also developed an aesthetic sense. All the students enjoyed a lot while doing this creative activity.

**Crazy Body Part Game-** This is one of the best games for parts of the body. It injects fun into the class. Students of Nursery enjoyed these fun games, did lots of energetic activities, and learned the names of the main parts of the body.

**Match Stick Activity** - Nursery students made sleeping lines with the help of matchsticks. This activity allows the students to use lateral thinking which helps them move the right matchsticks to make sleeping lines. It's a really quick and easy way to learn to draw sleeping lines.

**Finger Dipping Activity**- Children dipped their fingertips in their favourite colours and put them on the sheets as per the numbers given. With this activity, children learned to count and recognize numbers. They explored this interesting way of printing and had lot of fun with colours.

**Story Session-** “A good story can imbibe the right values in the most impressionable age.” To encourage the skills of listening and reading, a storytelling session was organized by Nursery teachers. The story was narrated with the help of props and voice modulation. It was an interactive session which was thoroughly enjoyed by the students.

**Tall and Short Activity-** Tall and Short Activity was conducted for the students of Prep. In this activity, students learned how to make a tall and short ladder with the help of ice cream sticks. They pasted ice cream sticks in their scrapbook and made tall and short ladders. Students were able to explain the difference using live objects also.

**Sense Organs Activity-** The senses of hearing, smell, touch, taste, and sight were introduced to Prep students. Through demonstrations by the teacher and various fun-filled activities, students could feel and experience their sense organs. These activities captured the essence of each sense and left them with a sense of wonderment about themselves and the world around them.

**Grouping of Tens and Ones-** Our little ones of class Prep learned place values (Tens and Ones) with the help of a place value chart, beads, and counters. This activity gave a physical experience of grouping items by tens and ones. Now they can use tens and ones blocks to make numbers.
