

RALLI INTERNATIONAL SCHOOL

EXPERIENTIAL LEARNING

AN IMMERSIVE, PARTICIPANT FOCUSED ACTIVE APPROACH

“LEARNING IS CREATION, NOT CONSUMPTION. KNOWLEDGE IS NOT SOMETHING A LEARNER ABSORBS BUT SOMETHING A LEARNER CREATES.”

During these pandemic times, education has changed dramatically with the challenging rise of e-learning and in this new normal our young warriors at Ralli International School endure a lot of experience to withstand the shortcomings of this time.

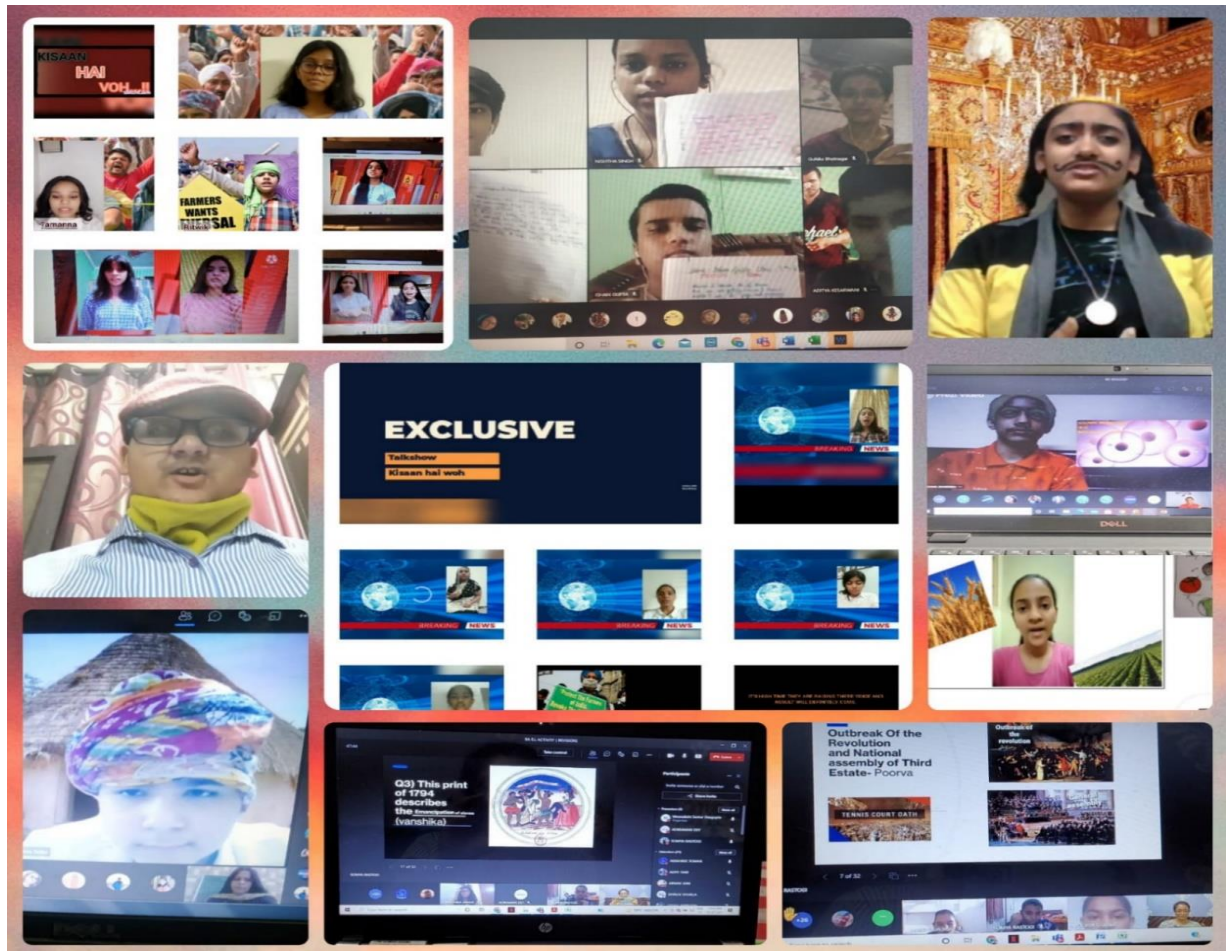

The academic session 2021-2022 goes about various approaches and series of activities engaging the students to acquire various skills such as Personality Development, Language skills, Scientific and Critical thinking etc.

These Experiential Learning activities during April, June and July were taken up to make a transition in various skills of our students at different levels.

CLASS 9

“IF YOU WISH TO MAKE AN APPLE PIE FROM SCRATCH, YOU MUST FIRST INVENT THE UNIVERSE.”

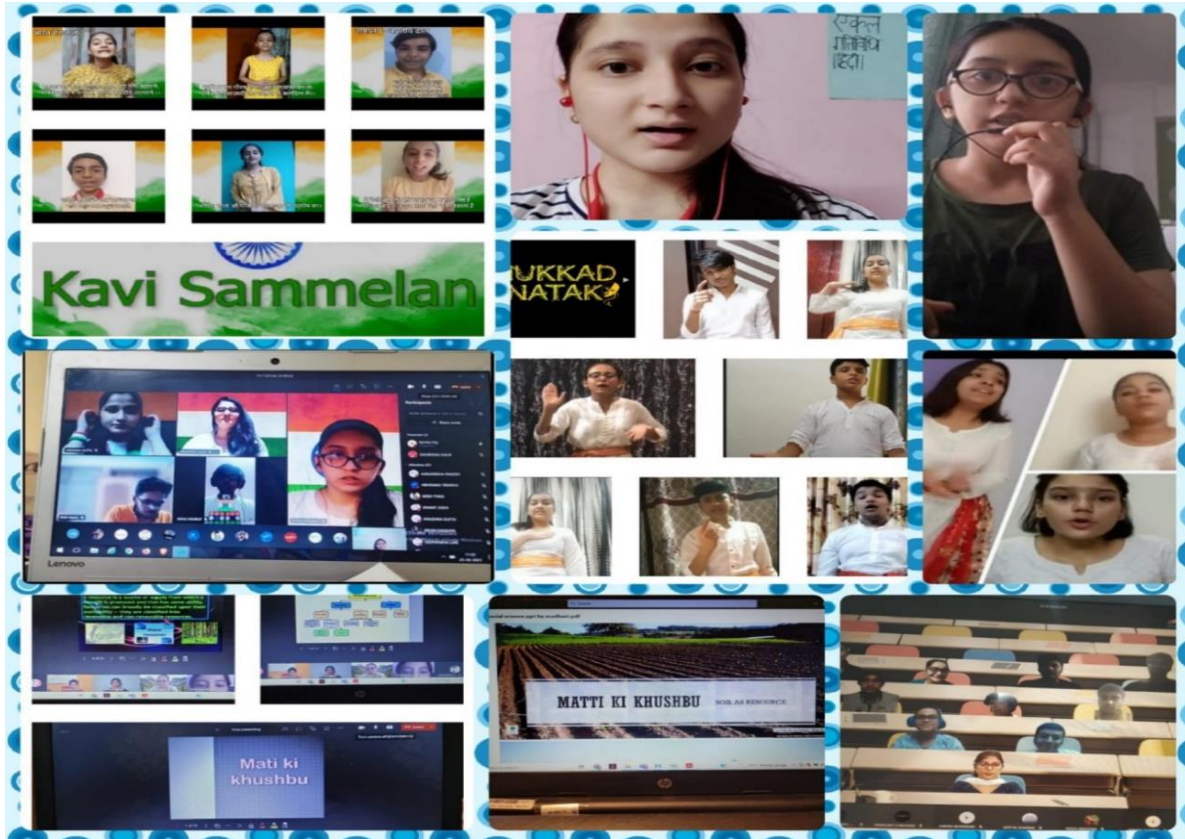

Rallians are nurtured and upskilled beyond the boundaries and exposed to the real-life situations. Learning by doing, develops students' interest and foster self- innovations. Role Play, Talk Show, Quizzes not only inculcate scientific attitude but also evolve subject clarity. Such activities always ameliorate the presentation skills in the students.

Out of these abundant activities, one was **WHO AM I**. This Science activity was conducted by the excited students where they depicted the cell organelle through flash cards / placards / illustrations / sketches & enactment. Other students had to identify the cell organelle which was presented through the activity. Concept clarity was engrossed in students through this activity.

CLASS 10

"FREEDOM IN THE MIND, FAITH IN THE WORDS, PRIDE IN OUR HEARTS & MEMORIES IN OUR SOULS..."

LSRW (Listening/ Speaking/ Reading/ Writing) are the four salient skills of language learning. Grammar and sentence construction are the integral component of Language. In order to promote public speaking, students were given opportunity to orate their thoughts through articulation, emphasis and gesture. Talk Show, Declamation, Skits, Kavi Sammelan are some of the activities performed by the students with zeal and enthusiasm.

Among the number of activities, **NUKKAD NATAK** was an exciting one where students performed to convey a social message मेरा देश महान (NATIONALISM IN INDIA) in good spirit and depicted the freedom Struggle moments in history and pay homage to the freedom fighters and strugglers who sacrificed their lives for the country. This activity enthralled the audience and transported us back to historical periods.

CLASS 11

“EXPERIENCE IS THE BEST TEACHER AND EDUCATION IS INCOMPLETE WITHOUT ADOPTING EXPERIENCE-BASED LEARNING.”

In the series of various interesting activities, the students performed in Poster Making, Group Discussion, Product Designing etc. It helps in strengthening their understanding of all important points and dealing with problems encountered in everyday life. The student's bagged the opportunities to be engaged intellectually, creatively, emotionally and socially.

PRODUCT DESIGNING AND PILOT SURVEY, a B.St Activity was conducted by the students of Commerce Stream. This activity comprised selection of a product & designing brand-name, logo & tagline for it. The response of students was impressive & flabbergasting.

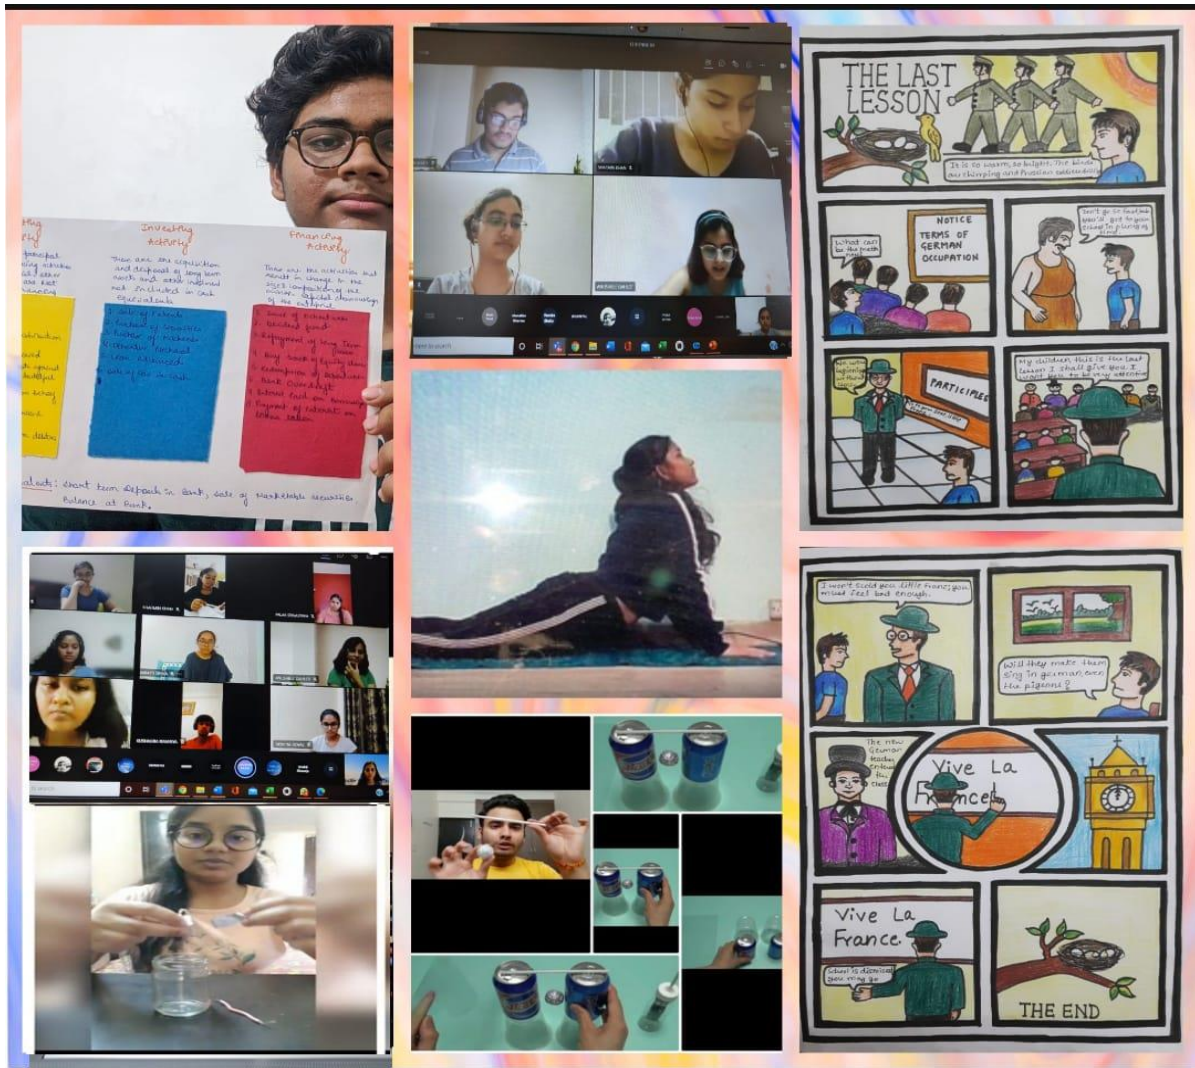

Furthermore, to make Mathematics interesting, the students of Science and Commerce stream were involved in an activity related to **LINES**, where they were supposed to select their nature and surroundings using sets of parallel, perpendicular and intersecting lines. The students learnt the concept of Lines in different manner which would enable them to prepare and draft maps of various places like parks, societies, colonies etc.

Students of Humanities were given an opportunity to understand the Parliamentary System in democracy. The activity **PRESENTATION ON DIFFERENT ASPECTS OF PARLIAMENT** related to Political Science was a good exposure for the students to research and prepare the presentation on the Speakers of Lok Sabha and the difference between Indian Parliament and other Parliaments.

CLASS 12

“LEARNING IS THE PROCESS WHEREBY KNOWLEDGE IS CREATED THROUGH THE TRANSFORMATION OF EXPERIENCE.”

Experiential learning has become a growing educational trend in the recent times. It is a non-traditional way of learning. At Ralli International School, E.L activities aim at providing efficient, blended learning and growth by channelizing the students' energy into right path. Brain storming exercises, Physical fitness exercises, Language based activities were accomplished by the learners in a very comprehensive manner bridging between learning the theory and practicing the theory, leading to higher rate of learning retention.

In the series of EL activities the students of all the streams prepared alluring **COMIC SCRIPT** and presented it in the class taking account of all minute details. In this manner they could revise and understand the chapter thoroughly. The students had the liberty to make it either online or by drawing on their own. Some of the students astonished everyone by their imagination which ultimately came out to be stupendous.

Another interesting and exhilarating activity was **PAPER CHROMATOGRAPHY**. Chemistry becomes interesting and comprehensive when it involves practical approach related to real life situations. The students of Science stream were involved in an activity where they had to use chromatography paper to separate colours present in dye. This activity enables the students to understand its relevance in medical field.

Students of Humanities Stream were involved in another interesting History activity- **HARAPPAN ARTIFACTS**. In this activity they prepared jewellery and pots used by the Harappan people. It was a learning experience where the students gained practical knowledge about the artifacts during the Harappan era.
