GLIMPSES OF EXPERIENTIAL LEARNING ACTIVITIES

(OCTOBER)

CLASS: 1

English

"Name my Opposite"

Opposites are very important to education, Without them, we would not know "hot" was compared to "cold" To demonstrate this, the teacher showed the kids a soft bunny and a hard rock. The visual and kinesthetic learning from touching the two made the understanding clear. An Art Integrated activity was conducted in class where student compared happy and sad face by drawing it.

MATHS

Shapes Pizza

Everything we see in the world around us has a shape. Learning shapes not only helps children ideal information, but it also helps them to learn skills in other curriculum areas including reading, math, and science. For example, an early step in understanding numbers and letters is to recognize their shape. To help them identify different shapes an activity "Shapes Pizza" was done in the class. The students created a beautiful pizza using different shapes like Circle, rectangle, triangle and square.
