

# REPORT OF THE ACTIVITIES CONDUCTED IN THE MONTH OF JANUARY

**Creative Owl Craft** – The UKG students enjoyed a fun and engaging paper-pasting activity designed to develop their fine motor skills. They used pre-cut shapes like circles, semi-circles, and triangles and pasted onto an owl outline.

To make their artwork more attractive, they coloured the branches and added googly eyes and a crown. This hands-on activity helped strengthen their hand muscles, improve endurance, and interactively enhance creativity.

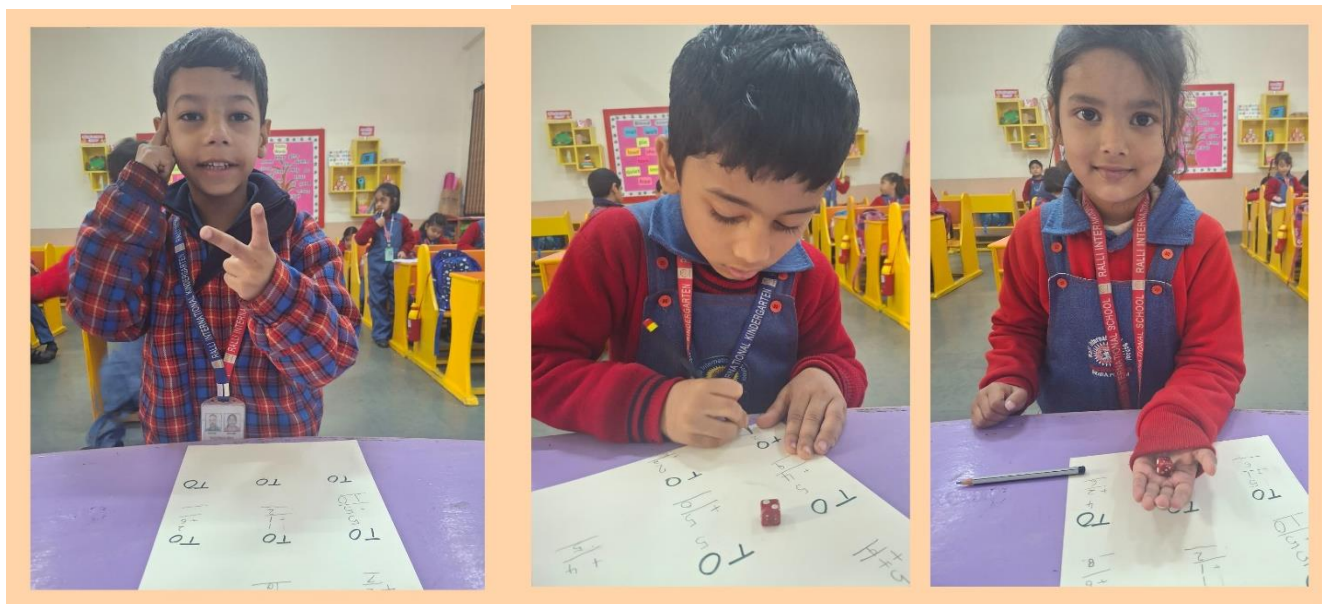

**Shabd Rachna**- Using flashcards, UKG students actively participated in the Shabd Rachna (Word Building) activity, forming two and three letter Hindi words. This fun and interactive session helped them recognize letters, blend sounds, and confidently build simple words.

**Flower Sketching**- The Flower Sketching activity was conducted for UKG students to enhance their creativity, observation skills, and attention to detail. Under the teacher's guidance, students practiced freehand sketching to fill the petals of a flower. This activity encouraged them to explore their artistic talents while improving fine motor skills and hand-eye coordination.

**Dice Game** - The Dice Game was conducted in the UKG class to help students learn addition in a fun way. Each child rolled the dice twice, counted the dots, and added the numbers. They then wrote the sum as an equation (e.g.,  $3 + 2 = 5$ ). The students were excited to roll the dice and enjoyed learning addition through this hands-on activity.

**Reading Floor Activity**- The Reading Floor Activity was conducted for LKG children to support their literacy development. This activity introduced them to new words, enhanced phonological awareness, and nurtured their interest in reading. It also encouraged independence, helping them take their first steps toward reading on their own.

**Vyanjan Drawing Activity** - LKG students had fun learning Hindi letters through the Vyanjan Drawing Activity. They enjoyed drawing and colouring 'ट से टमाटर', making the learning process more creative and engaging. This activity helped them remember the letter while also improving their reading, writing and artistic skills.

**Origami Fish Making Activity-** LKG students enjoyed creating colourful origami fish. They carefully followed the teacher's instructions to fold the paper into fish shapes and paste them into their scrapbooks. Using crayons, they added a creative touch by drawing a water scene. This enjoyable activity boosted their hand-eye coordination, creativity, and imagination, making learning fun and engaging.

**Tambola-** LKG students had fun revising numbers through the Tambola game. Each child got a slip with numbers, and as they were called out, they happily marked them. This fun game helped them recognize and remember numbers while enjoying the learning process.

**Clay Modeling Activity**-Nursery students had a great time making different fruits with clay. They showed excitement and enthusiasm while shaping the fruits. This activity not only boosted their creativity but also made learning fun. All the children participated with joy and enjoyed the experience.

**Number Matching Activity** - Nursery students actively participated in a fun number matching game. They counted the colourful dots on their sheets and matched them with the correct number displayed on the chairs. This engaging activity helped them recognize numbers, improve counting skills, and enhance hand-eye coordination.

**Front and Back Activity** – Nursery children had fun learning about front and back through a hands-on activity. They used toys, books, and even their own hands to show the difference between front and back. This activity helped them observe and understand the concept in a simple way.

**Bud Printing Activity Report**- The Bud Printing Activity was conducted for Pre-Nursery students to enhance their fine motor skills and eye-hand coordination. The children dipped earbuds in paint and created colorful dots on a kite picture. They actively participated and thoroughly enjoyed dabbing paint, which helped strengthen their finger and hand muscles. This activity also fostered creativity, patience, and concentration, making learning both fun and engaging.

**Fun with Puzzles Activity Report-** Puzzles are an exciting and engaging way for young learners to develop problem-solving skills while improving their concentration and patience.

The Pre-Nursery students showed great enthusiasm as they explored different puzzle pieces. They enjoyed the challenge of fitting the pieces together, which helped strengthen their finger muscles and enhanced their cognitive skills.

**Story Session-** A captivating story session on 'Bruno Learns to Share' was conducted in all the classes. Teachers narrated the story using voice modulation and engaging props, making the session lively and interactive for the young learners.

The session emphasized the importance of sharing and kindness, helping children understand valuable social skills in a fun and engaging way. The students enjoyed listening to the story and actively participated in discussions, making it a delightful and enriching experience for all.
